

WB21 OPENS OFFICE IN RUSSIA

Moscow, September 20th, 2017: WB21 Group announced its office opening in Moscow, a logical follow-up to the extensive international development of WB21 that have begun with office openings in Brazil and India earlier this year. The new office activities will cover Russian and CIS countries with over 400 million people.

“The opening of WB21’s office in Russia is yet another important step to service more clients with local staff and infrastructure. Even though we are a global digital banking institution, being close to our customers and better understanding their needs provides us with the competitive edge over other fin-tech companies and provides with the ground for stronger future growth. We see huge potential in the Russian market, still exposed to numerous restrictions and high transaction fees from the traditional banks”, said Abygail DeSousa, COO of WB21 Group.

WB21 Group launched its digital banking platform in December 2015, and has acquired more than two million active clients since April 2017. Based on its unique business model that allows Private and Business customers from 180 countries to open bank accounts in less than 8 minutes, WB21 has experienced rapid growth during the past twenty months. The Russian office is based in Moscow-city, the financial center of the country.

About WB21
